

Pasd Putthapipat PhD

EXECUTIVE DATA AND AI LEADER

Bangkok, Thailand | pasd.putthapipat@gmail.com

LinkedIn: linkedin.com/in/pasd-putthapipat-1a401940

Executive Profile

Data and AI executive with experience building analytics organizations, leading multidisciplinary teams, and establishing data foundations across financial services and telecommunications. Successfully launched a Data and AI Platform with a lean team and served as Acting Director of Data for a virtual banking initiative. A founding member of DataX, built its analytics and products department and directed AI product development. At True Digital Group, led 30+ data scientists and the launch of four analytics products. Combines technical and organizational leadership with university teaching in data science and business analytics, and research on decentralized data strategies for virtual banking.

Leadership and Domain Expertise

- **Strategy and organization:** Data and AI strategy, department building, cross-functional leadership, product vision and roadmaps, and research and development.
- **Data foundations:** Data and AI platforms, data engineering, data architecture, governance policy, data privacy, and PDPA compliance.
- **Business domains:** Virtual banking, financial services, telecommunications analytics, credit analytics, digital behavior, and university engineering education.
- **Technology advisory:** IT direction and procurement advisory, telecommunications public policy, industrial standards, and legal advisement.

Professional Experience

Career break from corporate roles since August 2026; adjunct university teaching continues.

Infinitas by Krungthai

Director of Data Innovation | December 2024 - July 2026 | Bangkok, Thailand

- Successfully launched a Data and AI Platform for a new group company with a lean team.
- Served as Acting Director of Data for a virtual banking initiative, leading platform setup from inception across data engineering, data architecture, and data governance.
- Planned the transfer of data and AI platform practices to other group companies.

SCB DataX

Head of Analytics and Products | November 2021 - November 2024 | Bangkok, Thailand

- As a founding member of DataX, the analytics subsidiary of SCB X, built the analytics organization and product team from inception.
- Led AI scientists, data scientists, data analysts, BI engineers, machine learning engineers, and product owners across research, analytics, engineering, and product development.
- Directed AI and analytics product vision, roadmaps, research, proofs of concept, and delivery.

Professional Experience Continued

True Digital Group

Analytics Business | March 2018 - October 2021 | Bangkok, Thailand

Head of Product, Analytics Product | May 2021 - October 2021

Head of Product Development, Analytics Product | June 2019 - April 2021

Acting Head of Product | October 2020 - April 2021

Head of Risk Management Product, Analytics Product | January 2019 - May 2019

Principal Data Scientist | March 2018 - October 2021 (concurrent with leadership roles)

Leadership and Delivery

- As Head of Product, led product development, product owners, and UX/UI teams; directed product vision, roadmaps, research, and proofs of concept; partnered with the Analytics Platform team on software development and delivery.
- As Head of Product Development, led 30+ data scientists researching and developing analytics products within an in-house startup.
- As Head of Risk Management Product, led risk analytics development and technical operations for internal and external clients; managed data scientists, business analysts, developers, and financial experts.
- Provided hybrid credit capabilities and solutions across multiple CP Group businesses.

Products Built and Launched During This Tenure

- **GeoPulse | Location Intelligence:** Multidimensional density heat maps with analytical insights presented as a visual analytics product.
- **DigiPulse | Competitive Digital Analytics:** Digital footprint reports comparing competing businesses and their digital activity.
- **Customer360 for True Group | Behavioral Analytics:** Automated behavior extraction engines over a big-data platform for True Group.
- **True Score | Alternative Credit Scoring:** Alternative credit scoring as a service.

Saijo Denki International Co., Ltd.

Technical Consultant and Co-PI | August 2014 - April 2018 | Bangkok, Thailand

- Launched IoT-enabled consumer products, including split-system air conditioners and air purifiers.
- Researched IoT, mobile network applications, and online-to-offline services in an in-house startup.

Santonino Co., Ltd.

IT Consultant | January 2003 - June 2008 | Thailand

Academic Leadership and Research

Assumption University

Lecturer, Computer Engineering | June 2006 - April 2018

Vincent Mary School of Engineering

Chairperson, Computer Engineering | October 2016 - April 2018

Acting Chairperson, Aeronautic Engineering | February 2016 - September 2016

- Taught algorithm design, programming, digital logic, embedded systems, microprocessor and interfacing laboratories, discrete mathematics, and cloud computing.
- Served on the School of Engineering Quality Assurance Team, May 2013 - April 2018.
- Served as Responsible Faculty Member for Computer Engineering, August 2017 - April 2018, and Aeronautic Engineering, February 2015 - July 2017.
- Held academic-advising, student-development, and international-relations coordination appointments.

Selected Applied Research | May 2013 - April 2018

- **Open IoT platform:** Developed a Raspberry Pi platform and prototypes for access control, voice-controlled communications, and customer counting.
- **Sensor analytics:** Conducted big-data analysis using temperature and power sensor data.
- **Social media analytics:** Conducted Thai-language social trend analysis using Google Cloud Platform.

Florida International University

Researcher | August 2008 - April 2013 | Miami, Florida, United States

Graduate Assistant, Electrical and Computer Engineering | September 2010 - April 2013

Graduate Assistant, Telecommunications and Information Technology | August 2008 - August 2010

- Conducted computer engineering and telecommunications research as a team lead and team member.
- Coordinated ABET-related assessment surveys, comprehensive examinations, and undergraduate engineering portfolios with the Undergraduate Program Director.
- Contributed to undergraduate and graduate curriculum development; taught Electronic I and Integrated Circuits laboratories in 2011-2012.

Earlier Academic Appointments

- **Research Internship | HEIG-VD | December 2007 - March 2008.**
- **Teaching Assistant | Assumption University | June 2003 - September 2005.**

Academic Quality Assurance Experience

US ABET; Thailand TQF, TPQI, MUA, and ONESQA.

Teaching and Professional Contribution

Current Adjunct Appointments

Mahidol University

Adjunct Faculty Member | September 2026 - Present | ICT program

Panyapiwat Institute of Management

Adjunct Faculty Member | 2021 - Present

- Teach IB5172704, Data Analytics and Governance for Business Decision; previously IB62709, Big Data Analytics for Business Decision.
- Taught MI 62212, Big Data Analytics for Consumer Behavior, semester 1/2021; served as Responsible Faculty Member, 2019-2020.

King Mongkut's University of Technology North Bangkok

Adjunct Faculty Member | 2020 - Present

Department of Applied Statistics, Faculty of Applied Science.

- Teach 040563107, Tools for Statistical Data Science, and 040563105, Statistical Analysis for Big Data.

Previous Adjunct Appointments

- **Thai-Nichi Institute of Technology | Adjunct Faculty Member | Semester 1/2020:** Taught DGE-306, Big Data Engineering, Digital Engineering International Program.
- **Prince of Songkla University Phuket Campus | Adjunct Faculty Member | Semester 1/2017:** Taught EB976-302, E-Payment.

Selected Guest Speaking

Guest-speaking engagements at KMITL, NIDA, and True Digital Academy.

Education

Doctor of Philosophy in Electrical Engineering | April 2013

Florida International University, Miami, Florida, United States

Specialization: Telecommunications and Networking. Dissertation: Lightweight Middleware for SDR Inter-components Communication. Supervisor: Jean H. Andrian. Full financial graduate assistantship.

Master of Science in Computer Engineering | 2012

Florida International University, Miami, Florida, United States

Bachelor of Engineering in Computer Engineering | March 2006

Assumption University, Bangkok, Thailand. Full scholarship from Assumption University.

Technical Expertise

- **Data platforms and cloud:** Apache Hadoop, Apache Spark, Databricks, Google BigQuery, and Google Cloud Platform.
- **Analytics and programming:** Python, R, MATLAB, SQL, Java, JavaScript, C, and C++.
- **Database systems:** Microsoft SQL Server and MySQL.
- **Applied engineering:** Embedded systems, IoT, telecommunications and networking, software-defined radio, and sensor analytics.

Selected Publications

- **2025:** W. A. Pongpech and P. Putthapipat. "Framework for Decentralized Data Strategies in Virtual Banking: Navigating Scalability, Innovation, and Regulatory Challenges in Thailand." Proceedings of the 15th International Conference on Cloud Computing and Services Science (CLOSER), pp. 111-118. DOI: [10.5220/0013194500003950](https://doi.org/10.5220/0013194500003950).
