

Pasd Putthapipat PhD

PROFESSIONAL CURRICULUM VITAE

Executive Data and AI Leadership | Analytics Products | University Teaching

Bangkok, Thailand | pasd.putthapipat@gmail.com

LinkedIn: [linkedin.com/in/pasd-putthapipat-1a401940](https://www.linkedin.com/in/pasd-putthapipat-1a401940)

Executive Profile

Data and AI executive with experience building analytics organizations, leading multidisciplinary teams, and establishing data foundations across financial services and telecommunications. Served as Acting Director of Data for a virtual banking initiative at Infinitas by Krungthai, leading platform setup across data engineering, architecture, and governance. A founding member of DataX, built the analytics and products department and directed AI product development. Previously led 30+ data scientists at True Digital Group. Combines organization-building experience and technical depth with university teaching in data science and business analytics, and research on decentralized data strategies for virtual banking.

Professional Experience

Career Break from Corporate Roles | August 2026 - Present

Infinitas by Krungthai

Director of Data Innovation | December 2024 - July 2026 | Bangkok, Thailand

Data and AI Platform Launch and Virtual Banking Data Foundations

- Successfully launched a Data and AI Platform for a new group company with a lean team.
- Served as Acting Director of Data for a virtual banking initiative, leading data platform setup from inception.
- Led the setup of data engineering, data architecture, and data governance capabilities within the initiative's data remit.
- Planned the transfer of data and AI platform practices to other group companies.

SCB DataX

Head of Analytics and Products | November 2021 - November 2024 | Bangkok, Thailand

Analytics Organization and Product Team Establishment

- As a founding member of DataX, the analytics subsidiary of SCB X, built the analytics organization and product team from inception.
- Brought together AI scientists, data scientists, data analysts, BI engineers, machine learning engineers, and product owners within the department, spanning research, analytics, engineering, and product responsibilities.

AI and Analytics Product Development

- Directed product vision and roadmaps, with leadership responsibility extending through research, proofs of concept, and product delivery.

Analytics Product Leadership

True Digital Group

Analytics Business | March 2018 - October 2021 | Bangkok, Thailand

Head of Product, Analytics Product | May 2021 - October 2021

- Led product development, product owners, and UX/UI teams across the analytics product portfolio.
- Directed product vision and roadmaps, research, proofs of concept, and delivery.
- Partnered with the Analytics Platform team on software development to bring analytics products to market.

Head of Product Development, Analytics Product | June 2019 - April 2021

Acting Head of Product | October 2020 - April 2021

- Led 30+ data scientists researching and developing analytics products within an in-house startup.

Head of Risk Management Product, Analytics Product | January 2019 - May 2019

- Led risk analytics product development and technical operations for internal and external clients.
- Managed a multidisciplinary team of data scientists, business analysts, developers, and financial experts.
- Provided hybrid credit capabilities and solutions across multiple CP Group businesses.

Principal Data Scientist | March 2018 - October 2021

Selected Products Built and Launched

Led development and launch of the following products during the True Digital Group tenure. Leadership covered product vision and roadmaps, research and proofs of concept, product development, and delivery, working with product owners, UX/UI, and the Analytics Platform team.

- **GeoPulse | Location Intelligence:** Delivered multidimensional density heat maps with analytical insights, translating location data into a visual analytics product.
- **DigiPulse | Competitive Digital Analytics:** Delivered digital footprint reports comparing competing businesses, providing a product for examining their digital activity.
- **Customer360 for True Group | Behavioral Analytics:** Developed and launched automated behavior extraction engines over a big-data platform for True Group.
- **True Score | Alternative Credit Scoring:** Developed and launched alternative credit scoring as a service, extending the portfolio into credit analytics.

Adjunct Teaching and Professional Contribution

Mahidol University

Adjunct Faculty Member | September 2026 - Present

ICT program.

Panyapiwat Institute of Management

Adjunct Faculty Member | 2021 - Present

- Teach IB5172704, Data Analytics and Governance for Business Decision; previously IB62709, Big Data Analytics for Business Decision.
- Taught MI 62212, Big Data Analytics for Consumer Behavior, semester 1/2021.
- Served as Responsible Faculty Member, 2019-2020.

King Mongkut's University of Technology North Bangkok

Adjunct Faculty Member | 2020 - Present

Department of Applied Statistics, Faculty of Applied Science.

- Teach 040563107, Tools for Statistical Data Science, and 040563105, Statistical Analysis for Big Data.

Thai-Nichi Institute of Technology

Adjunct Faculty Member | Semester 1/2020

Digital Engineering, International Program.

- Taught DGE-306, Big Data Engineering.

Prince of Songkla University Phuket Campus

Adjunct Faculty Member | Semester 1/2017

- Taught EB976-302, E-Payment.

Selected Guest Speaking

Guest-speaking engagements at KMITL, NIDA, and True Digital Academy.

Academic Leadership and Earlier Experience

Assumption University

Vincent Mary School of Engineering | Lecturer, Computer Engineering | June 2006 - April 2018

Chairperson, Computer Engineering | October 2016 - April 2018

Acting Chairperson, Aeronautic Engineering | February 2016 - September 2016

- Taught algorithm design, programming, digital logic, embedded systems, microprocessor and interfacing laboratories, discrete mathematics, and cloud computing.
- Served on the School of Engineering Quality Assurance Team, May 2013 - April 2018, and as Responsible Faculty Member for Computer Engineering, August 2017 - April 2018, and Aeronautic Engineering, February 2015 - July 2017.
- Held academic-advising, student-development, and international-relations coordination appointments.

Selected Applied Research Projects | May 2013 - April 2018

- **Open IoT platform and prototypes:** Developed an open platform using Raspberry Pi and prototypes for access control, voice-controlled communications, and customer counting.
- **Sensor analytics:** Conducted big-data analysis using temperature and power sensor data.
- **Cloud-based social media analytics:** Conducted Thai-language social trend analysis using Google Cloud Platform.

Saijo Denki International Co Ltd

Technical Consultant and Co-PI | August 2014 - April 2018 | Bangkok, Thailand

- Conducted product and service research within an in-house startup unit, covering online-to-offline services, connected devices, and mobile network applications.

Florida International University

Researcher | August 2008 - April 2013 | Miami, Florida, United States

Graduate Assistant, Electrical and Computer Engineering | September 2010 - April 2013

Graduate Assistant, Telecommunications and Information Technology | August 2008 - August 2010

- Conducted computer engineering and telecommunications research as a team lead and team member.
- Coordinated assessment surveys, comprehensive examinations, and portfolios for undergraduate engineering programs in ABET-related work with the Undergraduate Program Director.
- Contributed to undergraduate and graduate curriculum development and taught Electronic I and Integrated Circuits laboratories in 2011-2012.

Earlier Appointments

- **Research Internship | HEIG-VD | December 2007 - March 2008.**
- **IT Consultant | Santonino Co., Ltd., Thailand | January 2003 - June 2008.**
- **Teaching Assistant | Assumption University | June 2003 - September 2005.**

Education

Doctor of Philosophy in Electrical Engineering

Florida International University, Miami, Florida, United States | April 2013

Specialization in Telecommunications and Networking. Dissertation: Lightweight Middleware for SDR Inter-components Communication. Supervisor: Jean H. Andrian. Full financial graduate assistantship.

Master of Science in Computer Engineering

Florida International University, Miami, Florida, United States | 2012

Bachelor of Engineering in Computer Engineering

Assumption University, Bangkok, Thailand | March 2006

Full scholarship from Assumption University.

Leadership and Domain Expertise

- **Strategy and organization:** Data and AI strategy, department building, cross-functional leadership, product vision and roadmaps, and research and development.
- **Data foundations:** Data and AI platforms, data engineering, data architecture, governance policy, data privacy, and PDPA compliance.
- **Business domains:** Virtual banking, financial services, telecommunications analytics, credit analytics, digital behavior, and university engineering education.
- **Technology advisory:** IT direction and procurement advisory, telecommunications public policy, industrial standards, and legal advisement.

Selected Technology Foundation

- **Data platforms and cloud:** Apache Hadoop, Apache Spark, Databricks, Google BigQuery, and Google Cloud Platform.
- **Analytics and programming:** Python, R, MATLAB, SQL, Java, JavaScript, C, and C++.
- **Database systems:** Microsoft SQL Server and MySQL.
- **Applied engineering:** Embedded systems, IoT, telecommunications and networking, software-defined radio, and sensor analytics.

Academic Quality Assurance Experience

US ABET; Thailand TQF, TPQI, MUA, and ONESQA.
